

Product Environmental Declaration

Product Type: STB-4SER 330
Product Ref: F03N82310

Product weight: 72 grams

Major component materials in the product:

Plastic material – Pure ABS (Halogen Free).

Components - 330Ω Resistor RoHS Compliant.

Terminals – Nickel plated Brass.

Fasteners (Screws & Washers etc.) – Bright Zinc plated Steel or Nickel plated Brass.

Environmental impact during manufacturing:

A small amount of leaded solder is used to connect the Resistor to the terminals.

There is no documented information on energy consumption for the manufacturing process.

Environmental impact during operation:

There are no known environmental effects of the product in use.

Recommended handling of the product at end-of-life:

The product shall be disposed of in accordance with European WEEE 2002/96/EC directive, for Waste Electrical & Electronic Equipment. The product is marked with the “Wheelie Bin” logo to indicate this requirement.

Most recycling facilities have a collection point for “WEEE” waste.

Industrial waste management companies will handle large quantities.
